Saturn™ Horizon

New Saturn finish on the Horizon

The sophisticated Saturn range of switches and accessories now has a new addition that's in touch with your style – Saturn Horizon.

Incorporating all of the fantastic architectural design features that have made the Saturn range so popular, Saturn Horizon offers a textural metallic finish, combining functionality and style.

Horizon Silver and Horizon Black come with a subtle charcoal grey frame and push-buttons that perfectly match the stylish new fascia, and superbly blend in with today's popular kitchen appliances and interior design.

No matter what colour you choose, Horizon provides you with the most contemporary switch design on the Australian market.

Colours and styles

Available in Horizon Silver and Horizon Black for all wall switches, switched sockets, dimmers, fan controllers, cooker switches, and communication plates (see page 12 for colour representation).

Clipsal Saturn™

Clipsal Saturn – stunning design

Sharing the original sleek design that inspired Saturn Horizon, Clipsal Saturn is a premium range of architecturally designed electrical accessories. Especially appealing to those who desire the latest styles and fashions.

The entire range has set new standards in home electrical accessories – offering switch and accessory design that is unlike any other 250V electrical accessory range on the market.

Clipsal Saturn is specifically designed to offer a seamless electrical solution for your home in Ocean Mist, Espresso Black and Pure White colour variants. Going beyond just wall switches and power outlets, the Clipsal Saturn range offers a complete electrical accessory solution that gives superior functionality while enhancing your décor.

Clipsal Saturn – pioneering push-button technology

Clipsal is proud to be the first company in Australia to introduce innovative round push-button design with the stunning range of Saturn wall switches.

Clipsal Saturn's revolutionary push-button technology gives you smooth reliable operation at the touch of a button, while incorporating inspirational architectural design.

Saturn Wall Switches

You'll love the luxurious look and feel of Clipsal Saturn and Saturn Horizon wall switches, providing your home with a seamless style that is bound to turn heads. Each Saturn wall switch range will accommodate up to six individual switches and complement any modern interior design.

Compared with other wall switches on the market, the Saturn collection is unique: offering silky-smooth operation and architecturally designed fascias that look great and are a breeze to clean.

Saturn Switch LED options

Too often when we need to turn a light on in the middle of the night, we're left scrambling in the dark trying to find the wall switch. This scenario is not only difficult, but could be potentially hazardous.

Whether you require a LED indicator light to find a wall switch in the dark or an LED indicator light to tell you which switch is in operation – Saturn switches have it covered. Clipsal Saturn and Saturn Horizon are also available with or without subtle, 'soft glow' LED options, the choice is yours.

Saturn labelling

Saturn switches are also available with the option of handy labelling*, making it easy to know what each button does.

Saturn Horizon Twin Switched Sockets

The stunning Saturn Horizon range is the ideal addition to any kitchen, complementing and enhancing this busy social hub in the home.

Saturn Horizon twin switched sockets are 250V power outlets that allow the operation of all 250V electrical appliances.

Although Saturn Horizon switched sockets work the same as a standard power outlet, the eye catching architectural design is far from standard. Their textural metallic finish and flat, square edge design blends superbly with today's kitchen appliances.

Saturn Wall Switches

If you require multiple power outlets, Saturn quad switched sockets are the perfect option. Combining Saturn's stylish look with the convenience of a quad power outlet.

The quad switched socket is ideal for providing power to the home entertainment system, kitchen appliances and anywhere you require multiple power outlets. The benefit of extra spacing between the centre outlets makes it perfect for large plug chargers.

Clipsal Saturn Fan Controllers

The Clipsal Saturn fan controller enables the user to enjoy the comfort of climate controlled surroundings, while matching the elegance of the Saturn and Saturn Horizon switch plate range. Sleek and stylish looks give you complete airflow control without compromise when combined with Clipsal ceiling sweep fans. The fan shown in the picture on the left-hand page is part of a premium range of three, four and five blade fans in white, metallic or stainless steel finishes.

Clipsal Saturn Dimmers

The living room is one part of the house that can create many moods. Whether you require soft light while relaxing and watching a movie or full light while playing with the kids – Clipsal Saturn and Saturn Horizon dimmers will set the right mood any time of the day or night.

Clipsal Saturn dimmers' sleek, stylish looks give you complete lighting control without compromising your home's style. They'll also give you the advantage of energy efficiency, saving you money on power bills, while helping to save the planet.

Innovative Design

Designed to reduce visual clutter on the wall, the new Integrally Switched Push Button Universal Dimmer incorporates on/off switching and dimming control into one mechanism.

The dimming performance has been optimised to ensure smooth, linear dimming across the control range.

The new Clipsal C-Thru® Dimmers also offer considerable flexibility. They can be used to control loads such as incandescent lamps, 240V halogen lamps, dichroic lamps and low voltage lighting that uses iron-core or electronic transformers.

The Clipsal C-Thru Integrally Switched Push Button (ISPB) dimmers set new industry standards for compatibility and reducing the space required in a wall plate.

Styles & Colours

The Saturn range of colours will blend in beautifully with any home environment. Whether your style is modern and minimal or classic and cosy, the Saturn range will create a seamless look and feel throughout your home.

The Clipsal Saturn range is available in:

Ocean Mist - **OM**

Espresso Black - **EB**

Pure White - **PW**

The Saturn Horizon range is available in:

Horizon Silver - **HS**

Horizon Black - **HB**

Accessories

Saturn Communication Wall Plates

The stunning Saturn range extends beyond just wall switches and power outlets. Saturn communication wall plates are architecturally designed, giving you easy access to television, audio, phone, computer and the Internet without compromising on looks.

Saturn Television and Audiovisual

Set the scene by incorporating all the right TV and audio connectors. Incorporate Clipsal's data jacks, HDMI connectors or Foxtel-approved TV mechanism into Saturn communication wall plates.

Saturn Cooker Switches

Increase your home safety in style with the Saturn push-button cooker switch. The Saturn push-button cooker switch is the ideal option for isolating power to your electric bench top cooker.

Now a safety requirement in all Australian states, the Saturn push-button cooker switch will isolate power to your bench top cooker in an area that is convenient, but out of the way from kitchen traffic.

It also makes the perfect additional safety feature for cleaning on and around electric bench top cookers.

Accessories

New Saturn Horizon is backwards compatible with Clipsal Saturn range.
