LINN

KEY FEATURES INCLUDE

▌ Full bandwidth CD quality playback

▌ Unlimited off-board audio storage on a standard NAS

▌ Configurable system for added protection of audio collection

▌ Concurrent access by up to 8 users

▌ Interface with Linn Knekt multi-room system via Kivor Linnk

▌ Third party control via RS232 and Ethernet

The Akurate Music Server offers 8 channels of stereo analogue full bandwidth CD quality playback, making it the world's highest performance music server.
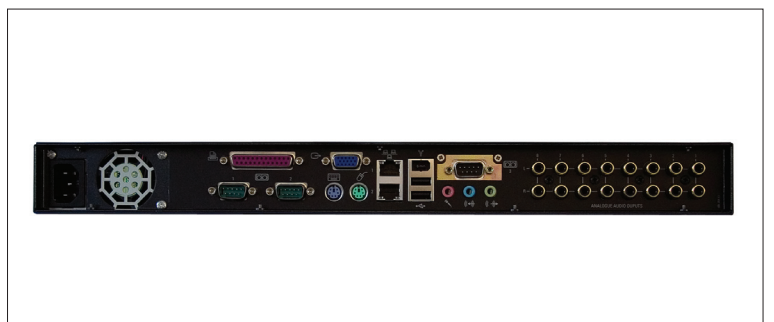

Offering concurrent access by up to 8 users, the Akurate Music Server is ideal for use in multi-room distributed audio systems, such as Linn's Knekt system. Users can have simultaneous independent control and listen to different music in each room, or can choose to have the same music synchronised throughout the home.

Music is stored remotely on a separate standard networked hard drive array, providing almost unlimited storage and making it a flexible and upgradeable solution which can expand with the user's music collection.

The storage device can be configured using RAID technology for added protection of the user's audio collection and playlist data, making it an exceptionally secure and reliable solution.

This compact unit comes in a 1U, rack-mountable chassis, which means that it can be installed easily in a standard rack housed remotely, away from the living space.

The Akurate Music Server can be controlled within a multi-room audio distribution system using a Linn Knekt RCU or a third party control device via RS232 or Ethernet.

AKURATE MUSIC SERVER

TECHNICAL SPECIFICATION

High performance music server

▪	Audio outputs	Eight pairs of line level outputs for connection to Linn INTERSEKT or other audio distribution pre-amplifier
▪	Communications Connections	Communications ports
		Ethernet
▪	Mains supply	AC 100 - 120 V @ 50 - 60 Hz
		AC 220 - 240 V @ 50 - 60 Hz
▪	Power consumption	30 W typical playback and idle, 50 W typical ripping media
▪	Dimensions	H 44.5 mm x W 482 mm x D 377 mm
		H 1.8 inches x W 19 inches x D 14.8 inches
▪	Rack height	1U
▪	Weight	6.25 kg
		13.8 lb
▪	Finishes	Black / Silver
▪	Installer connectivity	1 x VGA out
		1 x PS2 keyboard
▪	Supported formats	WAV, mp3
▪	Additional equipment required:	NAS
		Ethernet switch
		Ethernet cable
