- Bass/midrange has a strong die-cast chassis, a woven, glassfibre cone and a massive shielded magnet
- High specification crossover ensuring accurate music reproduction
- Heavy gauge cabling to input sockets
- Shielded drive units for use beside a TV or computer monitor

Utilising many common features of Linn's award winning loudspeaker ranges, the Linn Kan is a superb sounding two-way passive loudspeaker. Conceived as an additional partner for Linn's critically acclaimed Classik music system and as a new option for music lovers, the Kan is an extremely attractive and well-built loudspeaker.

This two-way bass reflex loudspeaker has substantial power handling ability and offers pitch accurate sound quality at an affordable price. Key features include a ceramic dome treble unit and the Kan's custom-made bass/midrange drive unit with its strong die-cast chassis and massive magnet for well controlled and extended bass response. A high specification crossover ensures accurate music reproduction through the complete frequency range and magnetic shielding enables the Kan to be positioned close to a television or computer monitor without causing picture interference.

Kan loudspeakers may be purchased separately or with the Linn Classik to make a superb, affordable, self-contained CD music system. Like the Linn 5110 loudspeakers, the scale of musical presentation from the Kan belies its bookshelf size, producing a superior and accurate performance with any Linn or quality component hi-fi system.

The Kan is stand, bookshelf or wall mountable and is available in attractive black, maple and cherry finishes from Linn dealers worldwide.
