Features

- Integrated woofer/baffle design delivers greater low frequency response by employing a 7" woofer where competitive models of the same outer size employ 6 1/2" woofers
- Polypropylene cone is light, strong and well damped to accommodate all program material
- Treated urethane surround increases sensitivity and preserves durability
- Dual 13mm fluid-cooled Kaladex® tweeters provide wide dispersion for clear and detailed high frequencies
- Bridge-mounted surround effects (FX) tweeter array directs the high-frequency sounds at opposing angles to create realistic surround sound effects
- Includes flush-mount MicroPerf™ aluminum grille for a clean and unobtrusive look
- Adjustable Dipole/Bipole and effects level controls provide for optimum room matching
